Product Features & Benefits

- Sleek shape made of stylish brushed high quality aluminum fits easily into any surroundings
- Active cooling:
  built-in dual/triple 70 mm fans, placed in strategic locations, create optimum airflow for comprehensive cooling
- Passive cooling:
  thermally enhanced aluminum alloy allows for fast and efficient heat dissipation
- Uniquely curved design enhances natural convection to prevent laptops from overheating
- Excellent silent notebook cooling solution

- Raises screen height to provide a comfortable viewing angle and help reduce neck strain
- Powered through USB port with on/off power button - no AC adapter required
- Two built-in USB 2.0 ports
- Non-interference front design provides complete clearance for easy front port access on all types of laptops
- Laptop is held securely in place without any overheating or risk of metal scratching the underside of your laptop
- Extremely sturdy structure accommodates for most notebook dimensions, including wide screens
